

## 2006 Mathematical Contest in Modeling Press Release—March 20, 2006

COMAP is pleased to announce the results of the 22nd annual Mathematical Contest in Modeling (MCM). This year, 748 teams representing institutions from 9 countries participated in the contest. Eleven teams from the following ten institutions were designated as OUTSTANDING WINNERS:

**Carroll College, Helena MT**  
**Duke University, Durham, NC**  
**Harvard University, Cambridge, MA (2 Teams)**  
**MIT, Cambridge, MA**  
**Rensselaer Polytechnic Inst, Troy, NY**  
**Rice University, Houston, TX**  
**Shanghai Jiao Tong University, Shanghai, China**  
**University of California at Davis, CA**  
**University of Colorado, Boulder, CO**  
**Zhejiang University of Technology, Hangzhou, China**

This year's contest ran from Thursday, February 2 to Monday, February 6, 2006. During that time, teams of up to three undergraduate or high school students researched, modeled, and submitted a solution to one of two modeling problems. The 2006 MCM was primarily an online contest. Teams registered, obtained contest materials, and downloaded the problem and data at the prescribed time through COMAP's MCM Website.

This year, the two MCM problems represented significant challenges. The author of both problems, Professor Kelly Black of Union College was also a member of the panel of final judges. **Problem A** asked teams to develop a model for determining a water irrigation schedule for a field of fixed dimensions subject to a collection of requirements that forced

teams to consider both the hydrodynamics and the practical aspects of the problem. **Problem B** required teams to construct a model capable of assisting a hypothetical airline company needing to determine an efficient way of positioning wheelchairs in order to assist limited mobility passenger travel at a spectrum of airport terminals. Teams selecting this problem were also required to craft their presentations as proposals that considered the intrinsic costs associated with their approach and how these costs influence their proposed solutions. The twelve **Outstanding** solution papers will be published in *The UMAP Journal*, along with commentary from the authors and other judges. All 748 of the competing teams are to be congratulated for their excellent work and enthusiasm for mathematical modeling and interdisciplinary problem solving.

---

### 2006 MCM Statistics

- 748 teams participated
  - 10 high school teams (1%)
  - 247 U.S. Teams (33%)
  - 501 Foreign Teams (67%) from Australia, Canada, Finland, Germany, Hong Kong, Indonesia, Ireland, China, South Africa, South Korea
  - 12 Outstanding Winners (2%)
  - 122 Meritorious Winners (16%)
  - 188 Honorable Mentions (25%)
  - 426 Successful Participants (57%)
- 

To obtain additional information about the MCM and to obtain a complete listing of all team designations, please visit the MCM Website at: [www.comap.com/undergraduate/contests/mcm](http://www.comap.com/undergraduate/contests/mcm), or contact COMAP at: [mcm@comap.com](mailto:mcm@comap.com).

*Major funding for the MCM is provided COMAP. Additional support is provided by the Institute for Operations Research and the Management Sciences (INFORMS), and Two Sigma Investments. COMAP's Mathematical Contest in Modeling and Interdisciplinary Contest in Modeling are unique among modeling competitions in that they are the only international contests in which students work in teams to find a solution. Centering its educational philosophy on mathematical modeling, COMAP uses mathematical tools to explore real-world problems. It serves the educational community as well as the world of work by preparing students to become better informed—and prepared—citizens, consumers, and workers.*

Administered by  
The Consortium for Mathematics  
and Its Applications

#### Contest Director

Frank Giordano, *Naval Postgraduate School, Monterey CA.*

#### Executive Director

Solomon A. Garfunkel, *COMAP, Inc., MA*

#### Founding Director

Ben Fusaro, *Florida State University*

#### Associate Directors

William Fox, *Francis Marion University, SC*  
Bob Borrelli, *Harvey Mudd College, CA*  
Pat Driscoll, *USMA, West Point*
